The Randolph Board of Township Trustees have started work on special projects for 2010.

The first project completed is the replacement of the floors in the Community/Senior Center Kitchen and Restroom Area.

When renting the halls please be careful to clean all spills immediately. Randolph Township is committed to providing these great facilities for the residents so please

help take care of all "our" investment.

The next project is the Outdoor Classroom project at the Randolph School Park. This project will provide an educational setting for a group of students from Waterloo Elementary School and others.

The club formed is called The Waterloo Sprouts. They will be utilizing this area to learn about horticulture and complete related projects.

As shown below, pro-

vided is a greenhouse, raised bed gardens and an area to grow plants and learn.

Along with the Randolph Farmers Market being located at the Randolph School Park the trustees are also in the process of installing a water well, restrooms

and chip and sealing the parking lot to improve that park facility.

The Randolph Fire Department will also see many improvements. Along with an already completed roof and heating system, the trustees have completed repairs to the

New Look on the South West Corner of the Town Center

If you stand at the township Gazebo and look to the southwest you see a great addition to the town center. The property is owned by Susan White and her husband Rick. Susan is one of the township trustees and for the past few years has been

making improvements to that lot.

This spring you might notice that she has completed the sidewalks that were removed during the sewer project.

The improvements look great Sue!
